

YUNEX TRAFFIC: LOGO DESIGN

The Yunex Traffic logo is a simple but powerful wordmark. It positions us as a digital leader, innovator and confident business partner.

The logo is used across all brand applications and communications to help audiences identify Yunex Traffic products, web presence and other materials, making the brand recognizable and memorable.

It is essential to the success of the brand that the logo is always applied with care and respect in accordance with these guidelines.

The logo consists of the word 'YUNEX' in a tall, thin, sans-serif font, with the letter 'E' stylized as three horizontal bars. Below it, the word 'TRAFFIC' is written in a shorter, bold, sans-serif font. The two words are centered and stacked vertically.

TRAFFIC

THE LOGO

YUNEX
TRAFFIC

The logo can be used on light and on dark backgrounds,
always ensuring sufficient contrast.

YUNEX
TRAFFIC

THE LOGO: EXCLUSION ZONES

In order to give our logo maximum legibility and exposure, please allow for an area of clearance around the entire logo.

The distance of clearance should be the height of the “YUNEX” lettering.

This gives the logo prominence and ensures that it will not be obscured or diminished by other surrounding elements.

THE LOGO: MINIMUM SIZE

Never reproduce the logo at a size smaller than these recommendations, as it will result in the loss of its impact and readability.

YUNEX
TRAFFIC

Minimum width:
110px / 28mm

YUNEX
TRAFFIC

Minimum width:
90px / 23mm

General Branding

The logo should never be smaller than 110px in digital or 28mm in print.

Branding on products

The logo should never be smaller than 90px in digital or 23mm in print.

Need it even smaller?

If an application (e.g. small placement on products) does require smaller usage, please use the designated micro logo instead (see next page).

THE LOGO: MICRO LOGO

There may be some use cases, such as product placements or certain give aways, where it is not possible to meet the defined minimum logo size. In these rare cases, we can use the micro logo instead to ensure better readability despite the small size.

The two-line version is always preferred here and is to be used if the available width is less than 110px in digital or 23mm in print. The single-line version can be used provided that the available height is less than 20px in digital or 4mm in print.

Width smaller than
110px / 23mm

Height smaller than
25px / 4mm

Exclusion zones:

Even if space is tight, try to give the micro logo at least 12px / 2mm of space.

H
Min. 12px / 2mm

H
Min. 12px / 2mm

Examples of use:

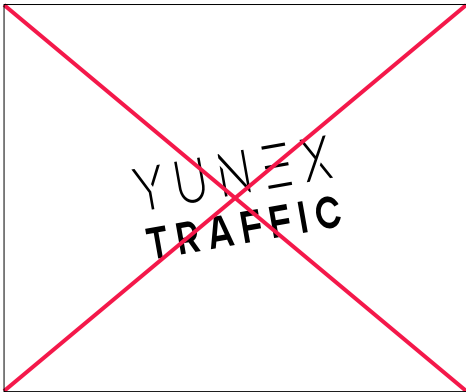

THE LOGO: PRODUCT LABELS

If the available space is less than 23mm wide, the micro logo is to be used.

Examples of use:

THE LOGO: DON'TS

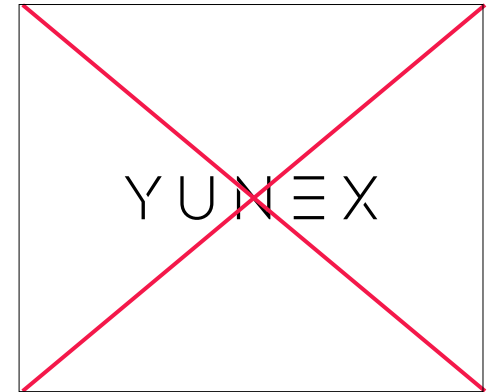

❌ **DON'T** stretch or rotate the logo.

❌ **DON'T** change the proportions of the logo.

❌ **DON'T** use the affix anymore.

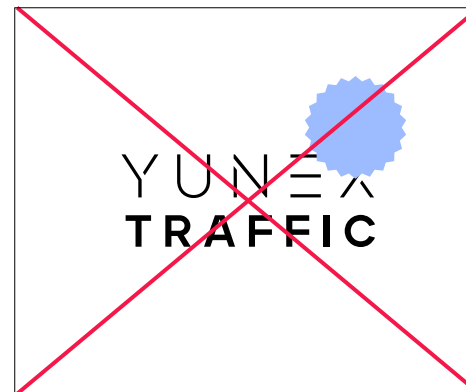

❌ **DON'T** use only parts of the logo.

❌ **DON'T** use transparency.

❌ **DON'T** use shadows or effects.

❌ **DON'T** overlay the logo.

❌ **DON'T** change the typefaces.

THE LOGO: USE OF COLOR

✓ Stick to black and white on colored backgrounds.

✓ Legibility is always our primary goal.

✓ Always ensure good color contrast.

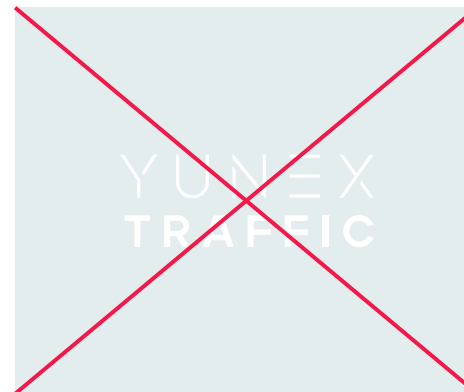

✓ When using gradients, keep it simple and clean.

✗ **DON'T** combine multiple highlight colors.

✗ **DON'T** use accent colors as background colors.

✗ **DON'T** use poor color contrast.

✗ **DON'T** combine multiple gradients.

YUTRAFFIC: LOGO DESIGN (ONLY FOR HONG KONG)

The Yuttraffic logo is a simple but powerful wordmark. It positions us as a digital leader, innovator and confident business partner.

The logo is used across all brand applications and communications to help audiences identify Yuttraffic products, web presence and other materials, making the brand recognizable and memorable.

It is essential to the success of the brand that the logo is always applied with care and respect in accordance with these guidelines.

The image shows the Yuttraffic logo, which is a wordmark consisting of the word "YUTRAFFIC" in a bold, uppercase, sans-serif typeface. The letters are white and set against a solid blue background. A thin white vertical line is positioned to the left of the text.

YUTRAFFIC

The logo can be used on light and on dark backgrounds,
always ensuring sufficient contrast.

YUTRAFFIC

THE LOGO: YUTRAFFIC (EXCLUSION ZONES)

In order to give our logo maximum legibility and exposure, please allow for an area of clearance around the entire logo.

The distance of clearance should be the height of the “YU” lettering.

This gives the logo prominence and ensures that it will not be obscured or diminished by other surrounding elements.

THE LOGO: YUTRAFFIC (MINIMUM SIZE)

Never reproduce the logo at a size smaller than these recommendations, as it will result in the loss of its impact and readability.

YUTRAFFIC

Minimum width:
102 px / 36 mm

General Branding

The logo should never be smaller than 102 px in digital or 36 mm in print.

YUTRAFFIC

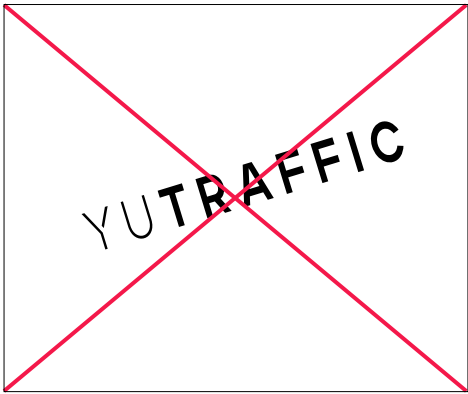

Minimum width:
85 px / 30 mm

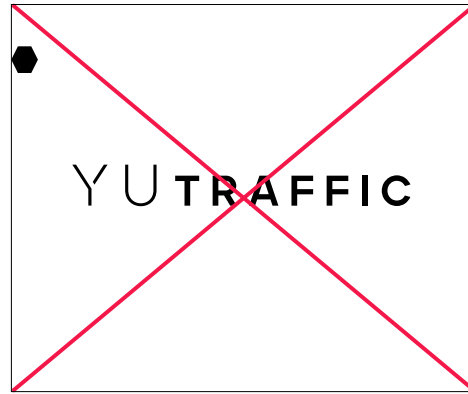

Branding on products

The logo should never be smaller than 85 px in digital or 30 mm in print.

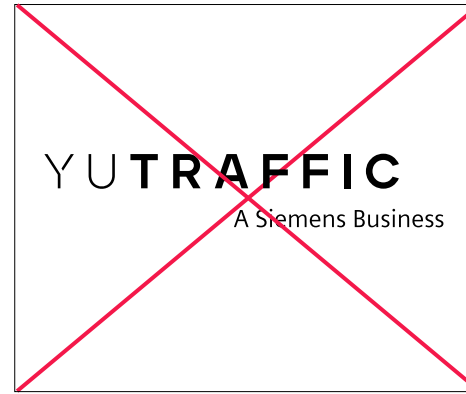

THE LOGO: YUTRAFFIC (DON'TS)

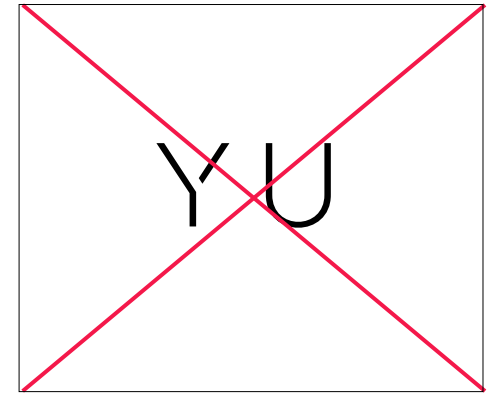

❌ **DON'T** stretch or rotate the logo.

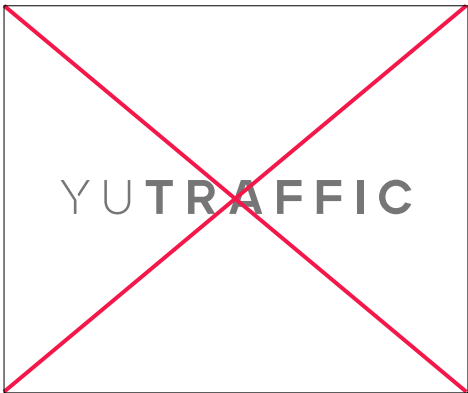

❌ **DON'T** change the proportions of the logo.

❌ **DON'T** use the affix anymore.

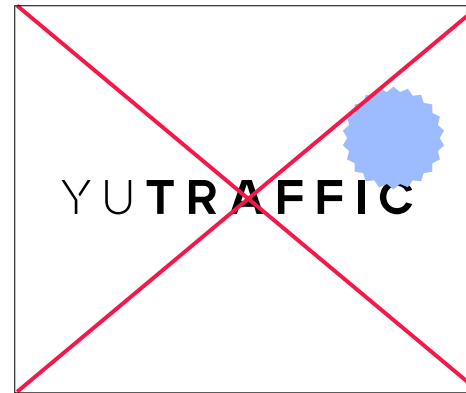

❌ **DON'T** use only parts of the logo.

❌ **DON'T** use transparency.

❌ **DON'T** use shadows or effects.

❌ **DON'T** overlay the logo.

❌ **DON'T** change the typefaces.

THE LOGO: YUTRAFFIC (USE OF COLOR)

✓ Stick to black and white on colored backgrounds.
