

We are Yunex Traffic, a global leader in intelligent traffic management technology.

Yunex Traffic offers the broadest end-to-end portfolio of solutions for adaptive traffic control and management, highway and tunnel automation, as well as smart solutions for V2X and tolling in the market. We enable cities, highway authorities, and mobility operators to make road networks and fleets intelligent, enhance safety, and increase value sustainably over the lifecycle.

OUR VISION

We connect the dots of a new **mobility revolution** that will transform cities all over the world.

OUR MISSION

With the broadest end-to-end portfolio of intelligent traffic management solutions in the market, we enable cities, highway authorities, and mobility operators to make road networks and fleets intelligent, enhance safety, and increase value sustainably over the lifecycle.

We embrace our responsibility to actively help make the world a better place.

BRAND CONTEXT

- **Rapid population growth**
is straining the transportation systems and road networks of major cities. People who live and work there are faced with increasing levels of congestion, delays, accidents, air pollution, and travel time.
- **The next mobility revolution is happening**
on our roads and will be driven by four disruptive changes: Vehicles will be shared, connected, electric, and autonomous.
- **Technological Trends**
like 5G, increasing cloud computing power, and AI reinforce that development.
- **Enormous amounts of data**
will be generated by connected vehicles, traffic infrastructure, and users of transportation systems.

OUR PURPOSE

01 We make cities more livable

We create intelligent traffic solutions to keep transport networks moving in cities, improving the quality of life of the citizens who live in them.

02 We improve safety

Our solutions save lives by improving safety levels of transport networks.

03 We care for our planet

We help reduce emissions from road traffic and thus support the solution to the climate crisis.

OUR VALUE PROPOSITION

We are a full-service provider with the broadest end-to-end portfolio of intelligent road traffic technology in the market.

With our solutions for adaptive traffic control and management, highway and tunnel automation and smart solutions for V2X and tolling, we enable cities, highway authorities, and mobility operators to make road networks and fleets intelligent and enhance safety, increase value sustainably over the lifecycle, and guarantee availability.

Our best-in-class products and solutions make use of and incorporate disruptive technologies, such as cloud computing, Edge systems, AI, and 5G. Based on a century of tradition, we combine experience with innovation, and physical products with digital solutions.

Together with our customers and partners we make road traffic more sustainable – now and for future generations.

YUNEX TRAFFIC

Brand stance

- We are uniting what's next in traffic.
- We are a digital leader.
- We don't talk about "innovation".
We do it. It's our DNA.
- Technology is our craft.

Tone of voice

- Efficient, friendly, authentic
- Balance of emotional (purpose & human benefit) and rational (technology & facts)
- Market / thought leader attitude
- Partner attitude (open & reliable)
